

## Information about the Tour and Japan..

### Food and Eating

One of the great attractions of Japan is the incredible food available. Enjoy truly authentic sushi and other delicious Japanese food. There are literally hundreds of restaurants and choices available! Prices range from several hundred yen *obento* from convenience stores or supermarkets up to tens of thousands of yen at exclusive restaurants. Your guide knows many great places to eat, and we can also explore and enjoy finding new ones!

### Special Diets

True vegetarian food is limited, as *dashi* fish stock is extensively used in many recipes. If you are happy to eat fish it is no problem, and even the simplest restaurant has some traditional dish that is suitably vegetarian. Special diets are generally not catered for in Japan. If you have special diet needs or allergies, please contact us and we can discuss the possibilities with you.

### Walking and Transportation

Our tour is based around walking to many of our destinations, including stairs, so a fair degree of mobility and fitness is required.

### Health and Insurance

It is highly recommended that you purchase your own travel insurance.

### Passport and Visa

You will need a valid passport, Australian citizens are automatically given a 90 day visitor visa when entering Japan.

### Money

Bring adequate cash - Japanese Yen! Japan is still very much a cash society. You may be able to access funds from the ATMs available in convenience stores and banks, but despite what your local bank or Australian Post will tell you, it may be impossible or at best difficult. Most small shops and restaurants will only accept cash.

### Telephone, Electricity & Internet

You can bring your mobile phone but check your provider's international roaming charges. Your accommodation provides free internet access, and there is a growing number of free internet access points in Cafes etc.

All power in Japan is 110 volts, with Japanese style double pin plug.
